Our Workmanship:

1. Temporary Inflatable Water Park is quick to setup and easy to move.
2. The material we used for the water park is EN71 flame retardant, and NFPA 701 fire resistance.
3. We weld strong anchor points which can provide safety and stability to the water park to withstand the high wind outdoor.
4. The inflatable water park can bring great fun for both children and adults during summer season.
5. The inflatable water park meet EN14960 Standards and we can make it to conform AS3533.4.1 Standards as well.
6. We use high quality Plato PVC materials.
7. We double and when requested, can quadruple stitch for added strength.
8. We can add reinforcement by using seat belt fabric on the bouncing surfaces and on corner joints.

Our Services:

1. 18oz pvc fabric certified by CE, ASTM and SGS, blower certified by UL and CE
 2. 10 years experience in the Industry of inflatables
 3. Professional designers and experienced technicians & workers
 4. Professional and passionate sales team, excellent services
