#### Our Workmanship:

1. We use high quality Plato PVC materials.
2. We double and when requested, can quadruple stitch for added strength.
3. We can add reinforcement by using seat belt fabric on the bouncing surfaces and on corner joints.
4. We make reinforcements at every weak points like welding seams, inside baffles, conner ,etc.
5. For anchor ring, we use 316 stainless steel material which last longer than other metal in water.
6. All our parts like handles, anchor rings are welded instead of glue, it's not easy to peel off.
7. We created original eyelet connection and anchor ring connection system which make the whole park very stable.
