Quick Details:

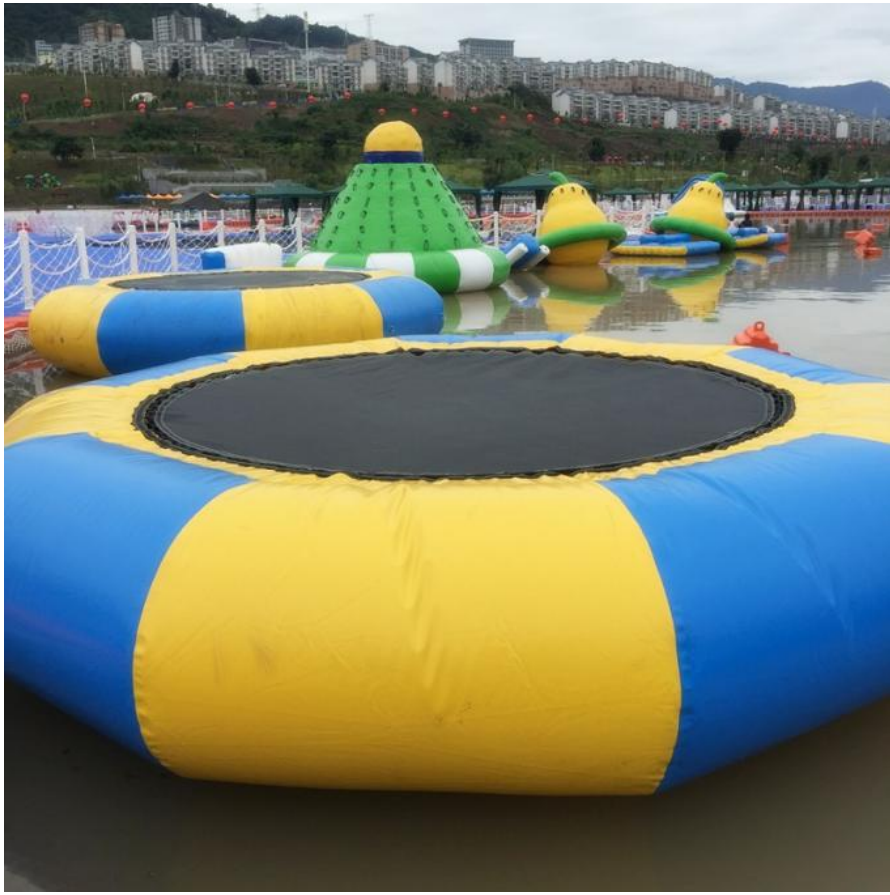

1. Commercial grade fabric reinforced 0.65-0.9mm PVC Tarpaulin, ideally suited for inflatable water sports. The PVC Material is 3 layers, which is Eco-friendly, Waterproof.
2. Heavy Duty molded handles make boarding easily and double the life expectancy, allow for convenient boarding and/or transport. We provide 3 molded boarding handles.
3. Floating Inflatable Water Games use D-ring convenient anchoring system and simple connector straps to connect modular parts. Large and heavy duty stainless D-rings helps bungee cords for easy anchoring.
4. Durable valve which good for quickly inflate or deflate? All valve comes with protect cover.
5. Floating Inflatable Water Games made by hot welding machine
6. Ce certificated pump for Floating Inflatable Water Games

Our Advanges:

1. The inflatable water games will not be over welded or less welded because we use imported welding machine to keep a stable welding temperature.
2. Reinforced strips both inside and outside of the welding seams on the water games.
3. Commercial grade and durable 0.65mm or 0.9mm PVC Material.
4. Thick and big stainless steel anchor ring with durable anchor pads at the bottom of the inflatable water games.

Using instruction

1. Kindly check whether is leak before using.
2. Please ensure the player do not take any keen-edged things when playing in the water parks.
3. Before use the water park, it is better to have a cushion pad under the product in order to avoid damage to the product.
4. Put the water park at cool place when not used, do not put it together with keen-edged things.
