Product Description

5m Diameter PVC Hotel Inflatable Clear Bubble Tent With Silent Blower

Specifications :

Product	Inflatable bubble tent
Material	Clear PVC for transparent part + PVC Tarpaulin for white part + Iron bar
Size	5m diameter for main room + 2.5x2x2m for entrance tunnel
Type	It needs to keep the blower input the air inside all the time
Usage	Hotel living or exhibition
Certificate	CE,UL , EN71
Workmanship	Welding by hot air
Structure	One main room + One entrance tunnel

Assembling :

Inflatable bubble tent consists of 2 sections, one entrance + one main room. The entrance is 2x2x2m, the main room is 5m in diameter (floor about 4mD). The tent needs a blower to input continuous air inside, the blower needs to be connected by electricity all the time, people can stay inside the tent for a long time due to continuous air input.

For the entrance tunnel, it can be set up by tube structure, but the tubes need to be inflated with air pump once ; It also can be set up by Iron structure, just as the picture shown. The Iron structure is connected by some iron bars , you can assemble the iron structure one by one iron bar .

For the bottom of the main room , there is a ring assembled by some iron bars , the purpose is to make the floor fixed to the ground , just like pictures shown .

For the ventilation problem of inflatable bubble tent , we can put a air conditioner inside the tent , the external unit can be placed under the tent or other places .
