#### Description:

Who said cows were boring? With its beautiful colors and neat design it has never been so fun to have fun at the shelter of a giant cow. This bouncy castle on the theme of the cow of green, orange and yellow colors looks like a drop of water to his little brother the bouncy castle cow standard except its imposing size that allows it to accommodate a very large number of users. The animals drawn inside it are very reminiscent of the environment of the farm  
This inflatable bouncer is made by PVC .It is easy to use,just plug in,then it works.We also can produce the products according to your design,size and color.

#### Advantage:

with roof on platform and slop for safe play,long enough run-out section for safe play,strong and much enough anchor points for stability,much deflation for quick deflation and fast pack  
fine and neat stitching for enough air pressure and good bounce

Material:we use customized 0.4/0.55mm PVC tarpaulin, which is more durable, more comfortable, less creases after packing and easy to clean.

Competitive price,we have focus on manufacturing good quality products with reasonable price at the whole long time.We try our best to give each customer the best product with best price.And we know that is best way for win-win cooperation. Stable connection system. eyelet connection system and anchor ring connection system which make the whole park very stable.

Quality guarantee,King Inflatable's product is manufacturing with plato material which has met with the certification of EN71,UL, SGS.All the product is inspetcted by water-proof,fire-resistance,cold-resistant and pressure-resistance.Reinforcement are made at joint points both outside and inside,like on corners.

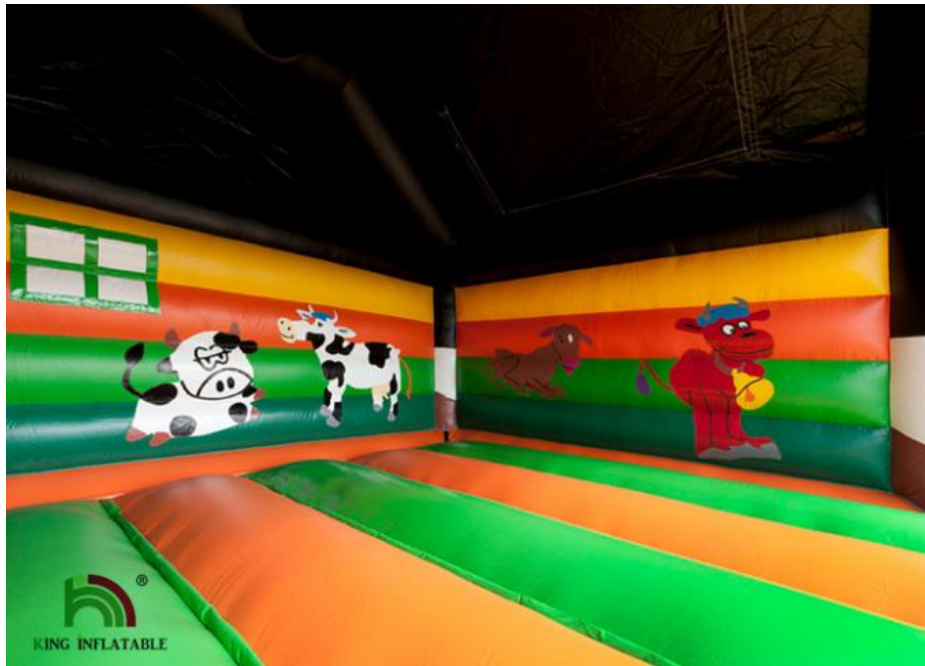

Delivery time,Timing is also the important thing we care about.We can make sure the short production time,faster shipping way with reasonable price for your goods.We can help you do the best.

#### Workmanship:

- 1) Reinforcement. We make reinforcements at every weak points like welding seams, inside baffles, conner ect.
- 2) Durable anchor ring. For anchor ring, we use 316 stainless steel material which last longer than other metal in water.
- 3) Durable parts. All our parts like handles, anchor rings are welded instead of glue, it's not easy to peel off.

4) Stable Connection System. King inflatable created originally eyelet connection system and anchor ring connection system which make the whole park very stable.
