Advantage:

Custom Designs available for different shape, size, colour, logo printing, etc. Durable PVC vinyl, abrasion resistant, lead free, weather-resistant, waterproof, fire-retardant, UV protective, 0.65mm or 0.9mm thickness. Professional Machines for Cutting, Welding and Printing to ensure high quality.
Certificate& Standards: CE, UL, ASTM, EN14960, EN71, NFPA 701 No Lead, Fire Retardant.Double welding throughout the unit with 3cm wide sealed. Three layers stitching in key areas inside the base of the unit.
Extra webbing reinforced strip on all the stress points and interior panels. For parts like anchor rings and soft handles, we use the big high frequency welding machine to weld on the products after glue on by hand. The partsand the main body are fused together so the quality is very stable and will not peel off.
Our anchor ring connection system makes the whole water park no gaps and very stable. Easy set up and take down.
We test each product for 1 day to ensure the inflatable product seamed exactly well. Each product includes a Repair Kit (Material Patches and Glue). Strong packing bag and export carton for transport and reuse.
