Product Description

Large 15m White 210D PVC Fabric Square Inflatable Tent For Wedding Party Event

Descriptions:

The inflatable cube tent can be used for camping, hunting, promotion and other outdoor activities according to your requirements. We can print your logo on the tent at a reasonable cost. As a manufacturer of giant inflatables we are specialized in creating giant custom advertising products. Our skilled design team will develop your very own custom inflatable tent, just contact us right away!

- 1, Water proof and fire resistant, can be used in the rainy and sunny days.
- 2, with blowers for inflating and fast deflating zipper holes, it will take about 1mins to inflate it, within 2mins to be deflated.
- 3, Many D rings around the bottom and top as anchors with rope to tie a weigh, in case of strong wind to blow it away
- 4, Inside with hooks for hanging something, air condition cable, lights or small things, each hook for ≥ 10 kgs, top no more than 50kgs.
- 5, If heavy rain, please don't use it, for the rain water would stay at the roof, make the tent come down.
- 6, Reinforced joins by double stitching

Applications:

inflatable trade show event tent can be widely used as warehouse, trade show booth etc whether temporarily or permanently, both indoor and outdoor use, rental or resell business.

Why choice us:

1.Material Introduction

Grade A 0.55mm PVC tarpaulin for all the tent ,bouncers ,castles and slides.Our material passed the SGS identification,Non-stimulative to skin,non-toxicity and non-taste.You could be at ease use.

2.Handicraft Introduction

Double stitching everywhere,reforcing design at each joint and corner,to make sure the inflatables are strong enough.

3.Printing Technology

We could print anything which you want,very clear and lively.Because we use the best quality printing machine,it print very quickly and in good quality.

FAQ:

1.What is the print process ?

All tents can be custom printed to your creative specification.

provide us your artwork on AI or CDR or PS coform, we will draw a 3D design for you to confirm before production

2. What size and what kind of tent should i choose?

To figure out the most suitable measurement for your case, we need below information:

- how many people you want to fit in the tent, is there anything else (like tablem stage,chair,ect.)
- the usage of the tent (what kind of event, day or night)
- located (available area measurement, indoor or outdoor)
- your budget, we can recommend the suitable material, design and size according to this request)

3.Is the material harmful? Can it be waterproof since it will be using outdoor

- yes, the material is water proof and also fire resitant
- no, the material is not harmful, it is environmental protection material

4. How to install

firstly, unfold the tent, find the air intake, connect the air intakes with the air blower

secondly, open the air blower

thirdly, it will start inflate, you just wait till it is full of air
