Description:

Inflatable playground is generally made by sewing a PVC material with a thickness of 0.55 mm or more and then heat-sealing. According to the different venues, it can be divided into water-inflated playground and land-inflated playground, indoor inflatable playground and outdoor inflatable playground; according to product size, it can be divided into large-scale inflatable, small and medium-sized inflatable playground.

In general, large inflatable are used outdoors, and the combination can be combined into different styles to form an outdoor inflatable park or an inflatable obstacle course.

Small and medium-sized inflatable can be used indoors and outdoors, and it is small in size, so it is more flexible. Restaurants, squares, amusement parks, family backyards, it can be seen everywhere.

We have a wide variety of products to choose from, as well as product customization. If you have a favorite style, just send us the picture, we can produce the same product. You can also print the trademark or company name on top.

Please note that we can accept customization. Give us a picture of what you want, we make it out as the same.
