Advantages:

1. Durable Material with EN-71 certification
Top quality material are always applied on our inflatables, all of them are made from the best material suppliers in China - Plato chemical; all of the material meets EN-71 certification.
2. Computerized automatic cutting system
Bese on the perfect design, the raw material of our inflatables are cut out the by computerized automatic cutting system which can ensure the perfect shape of each products.
3. High precision stitching machine and cultivated stitching workmanship
All of our sewing inflatables are stitched by high precision stitching machine with superexcellent 12 in 1 waterproof nylon threads, like the following image shows.
The length of every single stitching is around 4mm, which is the top standard in inflatable field; most importantly, we always apply double stitching anywhere on the inflatables and quadruple stitching in positions where may sustain much force and pressure from jumping.
These techniques are applied to our inflatable bouncer, inflatable castle, inflatable slide and inflatable amusement park and so on.

pls note: all of our inflatable games can be customized size, color and logo, the price mainly depend on the size, complex design, printing, material thickness, sewing technology etc, please contact our salesman for more details and latest price!!!
