Descriptions:

1. Best commercial 0.55mm PVC tarpaulin:
Best material is very important for commercial bounce house . All commercial bounce house of Powerful Toys are made from high durability fire-retardant 0.55mm PVC tarpaulin, which has 3 layers,two PVC coated sides with a strong net fabric inside. And the material has passed EN71,ROHS and SGS test.
2. Multifunctional and convenient design:Kids not only can jump on the top of the castle but also can slide down.On the left side,there is a strong ladder for climbing.
3. Turn on the blower connecting tube for inflating ; turn off the blower for deflating .
4. Many D rings at the bottom and top as anchors with rope to tie a weigh, in case of strong wind
5. We make double-stitching everywhere, with fourfold stitching at bottom stress points;double stitching inside and double stitching outside, which make sure the bounce house is strong enough for playing,once broken, it's easy to repair.

Advantages :

- Superior Strength – All inflatable games of Topfun are made by high durability fire-retardant PVC Tarpaulin, which has 3 layers, two coated side with a strong net inside. The flame retardant meet BS7837. This material has improved by the SGS. Extra heavy-duty, multilayer stitching is used throughout, further strengthening this tough bouncer.
- Multifunctional and convenient design:Kids not only can jump on the top of the castle but also can slide down.On the Middle side,there is a strong ladder for climbing.
- Easy Takedown – Zippered flaps allow the bouncer to easily be deflated and taken down for storage after the day of playing has ended.
- Lead Free – All materials comply with the Lead Free Toys Act.
