Advantage:

1. Material:We mainly use 0.55mm PVC tarpaulin, also, to meet different demands, say to let the product looks shiny or blinking, 0.47mm is better, less thickness but same quality which is also popular in American and Australian markets.Also, we use PLATO PVC tarpaulin material for our products only, which now is the TOP1 PVC tarpaulin supplier in China.Stitches: double and quadruple stitched. Our seams are constructed with extra heavy weight, twisted, multi-filament, nylon thread.
3. Reinforcements: Double to fourfold stitches to make sure product firm and extend use life span.
4. Anchors: Our anchors are constructed of heavy duty vinyl. 2" heavy duty D Rings are used in the anchor points.
5. Air Inlet / Outlet: 1.5m to 2m length airtube to inflate up,and quickly deflation with Zippers covered by Verclo sealed flap covers.
6. Safety Signs: places safety signs on every inflatable. It ensure that all players are aware of the safety and operation rules. These signs protect you and your customers.
