Description:

Our factory have been using the best materials in China,purchased from Plato company.The material has 3 layers,with double coated side and a strong net inside.It can be waterproof and fire-retardant.

This material use 3 years at least ,working 24 hours a day is not a problem.

This product need ti inflate it constanly by using blower connecting electricity.It is very fast to be put up and take down,with a very good bouce.

The wormanship,is using double stitching with fourth stitching at the bottom stress ppoint,double stitching inside and double stitching outside,to make sure the product is strong enough.Besides,we also reinforce strips at the joints,so you are no need to worry about the safety at all.The bottom can bear the kids no matter how they play on the castle.

For inflating, you can connect the blower and the blower tube,then turn on the electricity power,the castle can be inflated,about 2-3 minutes.For deflating,you only need to turn off the power,it can be deflated within 2-3 minutes.Besides,we also make a strong zipper at the bottom of the castle,you open the zipper,which can help you deflate it more quickly.Above the zipper,There is a zipper cover,which is help to disperse the zipper's stress.

In order to fix the castle to the ground,we will install enough D shaped rings at the top and bottom,you can use some strong ropes to fix it,to make it enough steady , besides , this castle is very heavy,It is impossible to blow it away

For the safety,we usually make safe flap inside the air tube,when the electricity is cut off and make the blower off suddenly,the flap will help to stop the air let out too quickly,so that the kids have enough time to leave the castle.

For shipping,our cpmpany has specialized shipping companY,safe and fast.Of course,if you have own agent / forwarder in China,pls tell us.If you only want one piece , shipping by express is the best choice; If you want to buy many castles,shipping by sea is the best choice.
