Descriptions:

1. All the water products are airtight type, so this big water pool with single layer is also airtight product you only need to inflate it once, then it can stay about 10-15 days.
2. PVC Tarpaulin has 3 layers, with double coated side with a strong net inside. It can be waterproof and fire-retardant, with CE, EN14960, SGS, EN71, ROHS, SASO, TUV certificates, good quality and durable. Its thickness is generally 0.45mm, 0.55mm, 0.65mm and 0.9mm. For inflatable swimming pool, we usually use 0.65/0.9mm, the best material from Plato.
4. In order to fix the pool to the ground, we will install enough D shaped rings on the tube, you can use some strong ropes to fix it to make it enough steady.
5. For this swimming pool, you can swim in it directly. Or you can also put some water equipments in the pool to increase the fun of playing, such as water ball, water roller, pedal boat etc. Both children and adults can enjoy playing with this swimming pool.
6. For inflate and deflate, you can find valve on the pool and connect the valve with air pump, meanwhile, connecting air pump and electricity power, turn on the power of air pump, then it can be inflated about 10 minutes; For deflate, you only need turn off the air pump, let the air out of valve, it can be deflated about 5-8 minutes.
7. In order to keep the water in the pool clean, if you need, we also can add a cover over the water. when you don't need the pool, you can put the cover over the water by using ropes connecting D rings on the tube.

Advantages:

1. strong and nice welds
