Our advantage of inflatable water parks:

- 1) We make reinforcements everywhere for the big water park, the connection between items of the park are durable eyelets, the structure can make the giant water park connect very stable.
- 2) We install high quality air relief valve from UK on all the items of this water park, so the items can release air to a safety level automatically when the air pressure getting higher.
- 3) We use thick and big stainless steel anchor ring with durable anchor pads at the bottom of the inflatable
- 4) Material: We use best 0.9mm or 0.6mm PVC tarpaulin for water games.
the best material is very important for the games. All inflatable games of Topfun are made by high durability fire-retardant PVC Tarpaulin, which has 3 layers, two coated side with a strong net inside. The flame retardant meet BS7837. Our material has improved by the SGS.
- 5) Heat sealing machine: For the sealed water game, it is very important for the welding well. We have advanced welding machine and the best workers in inflatable industry.
- 6) Printing: Digital print, silk print, or hand painting. The high level painting makes Topfun product will not be sticky and color fade, but sustain a long time. And it print quickly and in good quality. Further more, we make a liquid protecting film on the surface of digital printing,.
- 7) Blower/Pump: CE air pump: 220V; UL air pump: 110V
- 8) Strong package bags: We spread air out to help deflation before roll the game, then put a band belt outside to tie it. We will use tarpaulin bag which is same material as the games to package the units. So the packages will not be frazzled during delivery process. For big units, we will make extra handle band outside of the packages. In order to let you find your goods quickly, we will paste a mark paper with your order number.
