## Product Description

### Mega Brain Model Organs Exhibition Giant Human Big Brain Tent

Our larger-than-life MEGA Brain is the world's only portable, inflatable, walk-through brain exhibit. It draws crowds wherever it goes. Visitors who step inside Brain are wowed as they wander through the interactive exhibit to learn how the brain works from the inside out. Brain can be customized for your specific needs.

And hospitals, health care facilities and physicians from across the globe have given Brain their stamp of approval for its innovative, educational and fun approach to teaching children and adults about the central nervous system's most critical organ.

Visitors leave Brain knowing how to keep their brain healthy and understanding the latest medical treatments for brain trauma and disease.

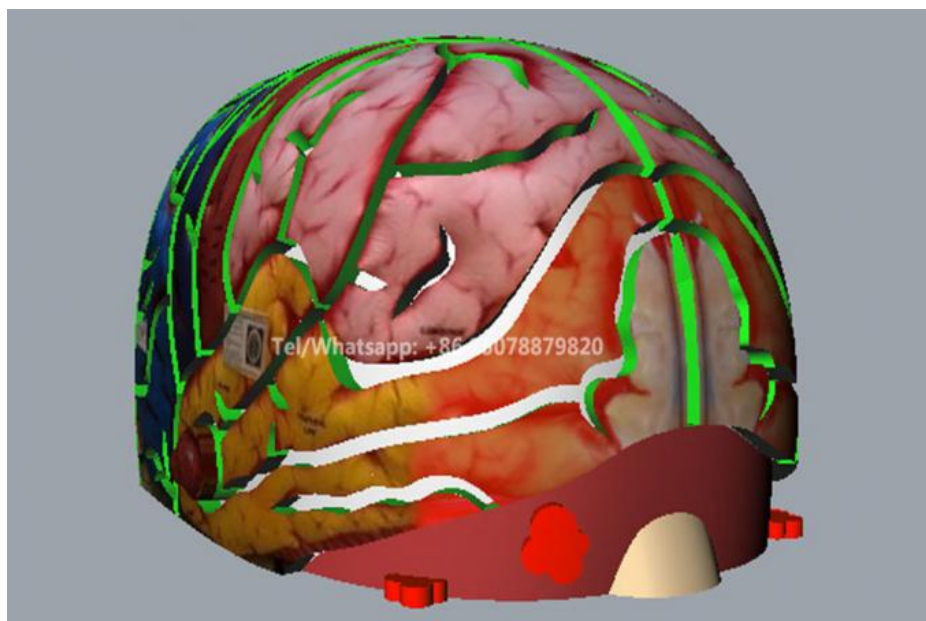

The Brain showcases a variety of features, both inside and outside the brain.

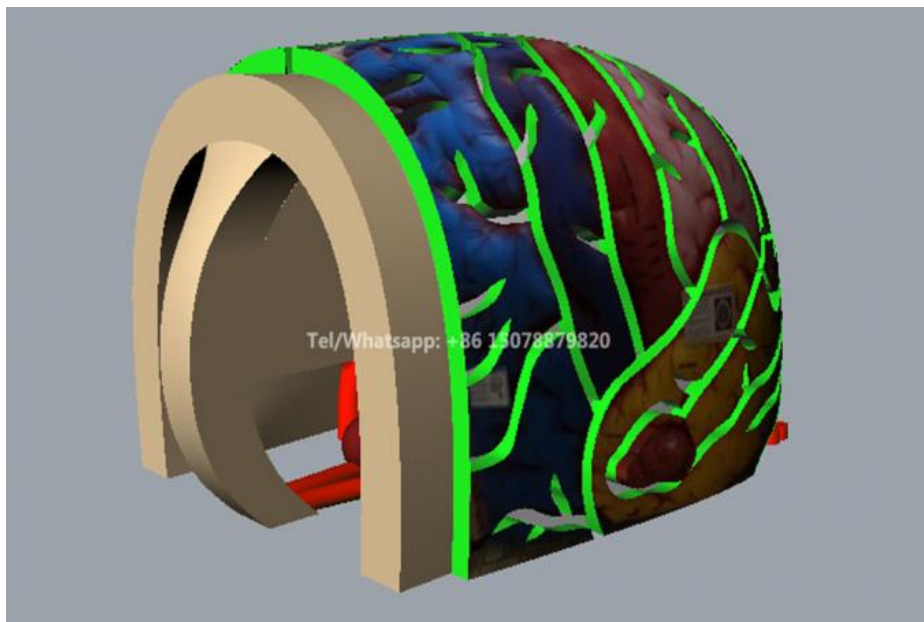

The journey starts in the frontal lobe, which is responsible for personality and higher cognitive functions, and continues through the cerebellum, the portion of the brain that controls balance and coordination.

### **Is the Brain inflatable exhibit right for my event?**

It's perfect for your stroke awareness event or any other "brainy" gathering! The MEGA Brain provides an innovative platform for advertising and publicizing your brain-related products, services, or organizations. It's a great way to attract guests to your booth at a medical or pharmaceutical trade show, to grab visitors' attention at a healthcare event, or even to bring a "wow" factor to your fundraising event. Our health exhibit rentals add fun interaction for any audience.

### **The MEGA Brain provides a great educational medical experience for:**

Brain events  
Cancer awareness events  
Health fairs  
Children's museums  
Company health and wellness events  
Fitness expos  
Hospital promotions  
Fun runs and marathons  
Substance Abuse Events

### **The Exhibit comes with the following standard features:**

Illnesses depicted in 3D as well as graphic digital art inside and out  
Latest medical treatments and disease prevention  
LED lighting to help internally light the display  
A trained King Inflatables' staff member to give tours to event attendees or train your employees for one day
