Product Description

Hire Inflatable Obstacle Course Outdoor Commercial Large Inflatable Obstacle Course Description Of Inflatable Obstacle Courses

Obstacle courses for adults are typically limited to those who are in the armed forces and those who choose to run races such as Tough Mudder and The Spartan. Full of immensely tough challenges, and, often, a lot of mud, those obstacle courses are for Experts Only.

But now there's a new kind of obstacle course for adults—it's inflatable, 100 feet long .It looks awesome.

According to the KING company website, The Obstacle courses was created to help adults "relive their teenage years again" and to test their agility. Children are invited to try the cours.

The Obstacle courses is longer than two football fields placed end-to-end and comes in 32 separate obstacles. They range in everything from bouncy balls and air-filled walls to nets and other soft barriers. Every assemblage of Obstacle courses can be customized to personal preference.

Accessories	1.Powerful Commercial Grade blower with 25ft long waterproof plug 2.Packing Buckles. 3. Repair kit and instructions.
Delivery Time	5-7days

1. Completely assurance

Our structures work with good sewing technic, they are 100% strong. They require the constant use of an electric compressor, and therefore need to be connected to an electric socket or to a generator.

2. Easy of Use

Ten minutes are all that is required to inflate our modules with a CE/UL pump. This time is greatly reduced by the use of 780W electric pump. It is of course possible to inflate them in the traditional way, by using a mains voltage pump. Our products eliminate problems with interlocking tents together, creating multiple rooms and any problems with assembly instructions.

3. Safety of use increased

Our structures do not have rigid element. This ensures the best security for present material assets and people.

4. Warm Warning

1. Please keep it far away from sharps and high temperature for it's normal lifespan.
2. Please follow the rules of usage and avoid injuries from sharps and high temperature.

5. Advantages

- (1) the best PVC waterproof, tensile strength, fire-retardant, anti-rust
- (2) More than 10-year factory
- (3) Price is negotiated, much more reasonable and pretty competitive
