Product Description

Inflatable Bouncer Spiderman Commercial Moonwalk Jumper Bouncy Castle Bounce House

Spider-Man Inflatable Bouncer Description

Actual Size: Length 4m x Width 4m x Height 4m

Our Spider-Man bounce house is courtesy of your friendly neighborhood web slinger. It has plenty of room for your friendly neighborhood friends to bounce to their heart's content.

For all Spider-Man fans, this Spider-Man bounce house is a must for any party.

The Spider-Man bouncy castle has a sunshade that provides shade on hot summer days to keep little bouncers cool.

This amazing bouncy castle has a full web cover to keep the little ones safe while bouncing inside.

Imagine the fun your little ones will have at their very own superhero party!

Buy Spider-Man bouncy castle from King Inflatables, an inflatable manufacturer with a large selection of bouncy castles. Our advantage over other inflatable manufacturers is that we offer good commercial inflatable products at the best prices, with fast shipping and the highest quality. We are your best bouncy castle manufacturer.

Normal setup is within 75 feet of the power source. Multiple installations require separate circuits to power. Setup in certain areas may require additional charges. Due to product development and improvements, artwork, shapes, colors, sizes, descriptions and schematics that appear may not reflect the latest changes.

Product Instructions:

1. When using the fan to inflate the inflatable large slide, pay attention to whether the power supply voltage is consistent with the product instructions.

2. The casing should be connected to a reliable ground wire, and it needs to be checked regularly.

Install a protective net on the air inlet of the fan to avoid safety accidents.

3. When collecting the inflatable large slide, the power should be turned off and the fan's interface and exhaust port should be opened. The exhaust time of the inflatable large slide is generally about half an hour (depending on the size of the slide), and the remaining air should be manually squeezed.

In case of water in rainy days, first remove the water and dry in the sun.

4. The large inflatable slide should be cleaned and disinfected regularly. The slide can be washed with detergent, and washed with clean water after removing stains.

5. If the inflatable large slide is not used for a long time, attention should be paid to folding, tying and packing the castle after cleaning. Storage temperature should be -50~+40 degrees Celsius is appropriate. And pay attention to prevent rats and insects from destroying the outer castle.

6, should pay attention to prohibit the age of too young children to play exciting projects.

7. Avoid too large age difference and prevent collision accidents between older children and toddlers.

8, the management personnel should be at any time to supervise, teach children to abide by the rules of the game to play, to prevent accidents.

9. In case of windy and rainy weather, it is forbidden to use the inflatable large slide outdoors in order to avoid accidents.
