Product Description

Inflatable Cube Tent Adults Outdoor Event Party Night Club Air Blow Up Tents

Inflatable Nightclub Tent:

This inflatable nightclub can be used for product launches, gala dinners, weddings, event parties, exhibitions and more. Redefines temporary public spaces through innovative, safe and aesthetic solutions. Its unique modular system allows the creation of a large number of shapes, providing answers to the needs of various events and festivals.

The Cube range; simpler, stronger and quieter, this solution offers endless combinations to create spaces. It really is a new way of conceiving temporary public spaces, bringing originality and customisation, creating a unique character for high-end events".

There are two options for assembly: each element can be immediately unfolded on the ground and assembled by connecting the joints of the modules. The ventilation blocks can then be attached to the air inlets located around the modules.

Alternatively, each module can be inflated individually before being assembled together. In both cases, the structure can be manually positioned after inflation.

The structure is made of a waterproof textile material. The structure uses high strength polyester fibres with good fire resistance (class C). The interior of the structure can be heated or air-conditioned as required.
