Our advantage of inflatable water games:

- 1) We make reinforcements everywhere for the big water park, the connection between items of the park are durable eyelets, the structure can make the giant water park connect very stable.
- 2) We install a high-quality air relief valve from Europe on all the items of this water park, so the items can release air to a safety level automatically when the air pressure getting higher.
- 3) We use a thick and big stainless steel anchor ring with durable anchor pads at the bottom of the inflatables.
- 4) Material: We use the best 0.9mm or 0.65mm PVC tarpaulin for water games. the best material is very important for the games. All inflatable games are made by high durability fire-retardant PVC Tarpaulin, which has 3 layers, two coated sides with a strong net inside. The flame retardant meets BS7837. Our material has been approved by the SGS.
- 5) Hot welding machine: For the sealed water game, good welding is very important. We have advanced welding machines and the best workers in the inflatable industry to reach it.
- 6) Printing: Digital print, silk print, and hand painting are available. The high-level painting makes our product will not be sticky

and color fade, but sustain for a long time. And it prints quickly and in good quality. Furthermore, we make a liquid protecting film on the surface of digital printing.

7) Blower/Pump: CE air pump: 220V; UL air pump: 110V

8) Strong package bags: We spread air out to help deflation before roll the game, then put a band belt outside to tie it. We will use a tarpaulin bag which is the same material as the games to package the units. So the packages will not be frazzled during the delivery process. For big units, we will make an extra handle band outside of the packages. In order to you can find your goods quickly, we will print our company's logo on the outside of the package bag and carton.

9) Professional design, production, service team to provide you an efficient service. All your questions will be responded to within 24 hours!
