#### Descriptions:

1. PVC Tarpaulin material is purchased from Plato , which has 3 layers ,with double coated side with a strong net inside , It can be waterproof and fire-retardant , with CE,EN14960,SGS,EN71,ROHS certificates , good quality and durable .You know , best material is very important for all the inflatable products , don't worry , all the materials we use are real and best material .

2. For inflatable products , there are 2 types ,one is airtight type , you only need to inflate it once , then it can stay about 10 days . Another is constant blowing type , you need to inflate it constantly , It is very fast to be put up and taken down . All the inflatable castles are constant blowing type , because they are stitched by stitching machine . Don't worry , their workmanship is very good , double stitching with fourfold stitching at the bottom stress point , double stitching inside and double stitching outside , to make sure that it is strong enough and can stand a very big stress . Besides , we also reinforce strips at the joints , so you don't need to worry about the safety at all , the bottom can bear the kids no matter how they play on the castle .

3. For inflating , you can connect the blower and the blower tube , then open the electricity power , the castle can be inflated ,about 2-3 minutes . For deflating , you only need to turn off the power , it can be deflated within 2-3 minutes . Besides , we also make a strong zipper at the bottom of the castle , you open the zipper , which can help you deflate it more quickly . Above the zipper , there is a zipper cover , which is help to disperse the zipper's stress .

4. In order to fix the castle to the ground , we will install enough D shaped rings at the top and bottom , you can use some strong ropes to fix it , to make it enough steady , besides , this castle is very heavy , it is impossible to blow it away .

5. For the safety , we usually make safe flap inside the air tube , when the electricity is cut off and make the blower off suddenly , the flap will help to stop the air let out too quickly , so that the kids have enough time to leave the castle .

6. If you have any needs about this castle, pls tell us the size , color , logo , we will offer a very competitive price based on good quality . You are always welcome to visit our company website and our factory . We hope we can build a long term cooperation relationship with you .

7. Before the production , our designers will make a 3D design picture for your confirmation , it will be produced according to your demands . We ensure to use best material and workmanship to produce it . The quality must be very good , use 3 years at least , 24 hours working all the time , it is not a problem .

#### Application :

For inflatable jumping castle , Most customers are businessman , they would buy many castles to sell or rent , to make more money . It is very good idea , the factory price of inflatable castle is very cheap , but you can get much profits by doing business about inflatable products . Of course , some customers want to buy one for their kids , then put it in the backyard , let kids play freely , as a private use .

#### Advantage:

1. Real material and best workmanship
2. Double and strong stitching
3. Very strong ,safe and steady
4. long life , use 3 years at least
5. Good printing and perfect artwork
6. OEM accepted
7. Easy to get it repaired , only need spare material and glue
8. Cheap price and good quality
9. Best after-sale service
10. very fast to inflate and deflate
11. on-time delivery and safe shippment
