Color	Green, blue, or any other colors can be customized
Dimension	L22m × W6.5m × H10m
weight	500KG
Volume	4CBM
Warranty	2 years

Description:

- 1 Material: It is made of 0.55mm thickness PVC coated tarpaulin. All the material we use is from PLATO CHEMICAL which is the best and biggest material supplier in China. PVC tarpaulin has 3 layers, 2 layers PVC with 1 layer strong net inside, which is waterproof, fire-retardant, and high durability.
- 2.Features: Waterproof, anti-tearing, Fire-resistant, strong and durable.
- 3.Certificate:UL,CE, EN14960,EN71,SGS. Our products exported to more than 100 countries. So please rest assure our products conform to your country standard.
- 4.Delivery time:10~15 days. Delivery time will depend on your order quantity.
- 5.Packing: Inflatable product is packed by heavy-duty PVC carry bag, the Air blower is packed by the exported standard carton.
- 6.payment terms: T/T, Western union. We prefer T/T or western union.
- 7.OEM/ODM: Acceptable. We can make the products as your design.
- 8.Accessories: Repair kit(fixing material and glue)

Advantage:

1. We have More than 10 years' production experience and many rich-experienced technical workers, so you can get the best quality and beautiful goods.
2. Advanced auto machines make production efficiency and quality guarantee.
- 3.All seams are doubled and fourfold sewed at stress points such as on the corner or bottom. so the items have good airtightness and more durable.
- 4.For parts like anchor rings and handles, we use the big high-frequency welding machine to weld on the products instead of gluing them on by hand. The parts and the main body are fused together so the quality is very stable and will not peel off.
- 5.All sensitive positions are reinforced where applicable 5-6 stitches in 1 inch to ensure our inflatables strong enough, avoid tearing easily.
6. We use good quality thick PVC material for the inside drawstring which helps form the inflatable shape. Thick PVC material will be more durable and can last for using time longer.
- 7.All edges will be hemmed inside with PVC tarpaulin to reduce air leaks. So you don't need so many blowers to work at the same time.
8. All inflatables were made with a backflow flap to slow down the air leak even the blower failure.
- 9.All inflatables include a backflow flap to slow down the escape of air from a game in the event of blower failure.
- 10.All deflate positions have a bidirectional zipper and the zipper will be covered with a flap, So they can help you deflate the inflatable more quickly. We do reinforcement for all the zipper joints, and above the zipper, there is a zipper cover by material which helps to disperse the zipper's stress. We may also make an inside PVC piece to protect the zipper.
- 6.All deflate positions have bidirectional zippers and the zippers will be covered with flaps which help deflate more quickly

FAQ:

01:The payment terms?

By T/T, Western Union.

02:What is lead time policy

Normally 10~15 working days after received the deposit,For big quantity order, depending on order quantity and artwork printing.
